

Survey Based Work

Get Paid for Doing Online Surveys

All you have to do is to register your profile with a few companies initially and later on check your emails a few times in a week. Let's start straightaway. *But before that, one point*

VERY IMP: It generally takes 30-40 days to start getting response from the companies as they update your profile in their database. Some of you might get the response a little early. Also in order to receive regular surveys, **you must register with all the survey companies listed below.**

How does this program Work?

You will be submitting your profile on various websites for once. Global Companies, who are conducting various product surveys in India, will contact these website and they in turn will send you surveys in your email. It's nothing but a questionnaire asking you general things. Frequency of surveys will depend on the profile you have submitted and the requirements of the companies. For ex a housing loan based survey won't be given to a person who already has a self owned house.
